

Resistance temperature sensor with well with higher mechanical stability

112 82

Designed for

- the remote temperature measurement of liquids in reservoirs and pipes up to the nominal pressure PN 63

Advantages

- higher mechanical stability
- material of wells steel class 12 022*, tř. 15 128, tř. 17 248
- the sensor comes with a 24-month guarantee

Technical data

Span [°C]	-70 to 400 (according to a material of wells and the internal wiring) -70 to 600 (according to a material of wells and the internal wiring)
Rated length L	160; 250; 400; 630* mm
Tolerance class	B
Type	single and double Pt 100
Protection rating	IP 65
*) only as a special request after arrangement with producer
